

Responding to violence across the life course

Gene Feder, Director and Principal Investigator

21 September 2023

The VISION research is supported by the **UK Prevention Research Partnership** (Violence, Health and Society; MR-VO49879/1), a Consortium funded by the British Heart Foundation, Chief Scientist Office of the Scottish Government Health and Social Care Directorates, Engineering and Physical Sciences Research Council, Economic and Social Research Council, Health and Social Care Research and Development Division (Welsh Government), Medical Research Council, National Institute for Health and Care Research, Natural Environment Research Council, Public Health Agency (Northern Ireland), The Health Foundation, and Wellcome.

The views expressed are those of the researchers and not necessarily those of the UK Prevention Research Partnership or any other funder.

Our Lived Experience partners

Small Project Fund

Announcement

- VISION pot of funding available, up to £25k per project
- Application should align to VISION research objectives
- Due January 2024
- All information and the form to download on our website

www.vision.city.ac.uk/call-for-small-projects/

Research Innovation Fund

The Research Innovation Fund is being used to:

- Support **lived engagement** (towards recruiting, resourcing, and facilitating groups)
- Advance **methods** (systematic review applying causal inference criteria to epidemiological research)
- Address **gaps** (analysis of 20 years of the HMIP survey of violence and safety in the prison population)
- Develop **applications** (use the new violence indicators in health service data to estimate premature mortality)
